OPERATIONS SUPERVISOR REPORT - Mr. Martini

- I met with our electricity consultant George Goss on March 27 regarding the change in law notice to the FERC (Federal Energy Regulatory Commission), which will affect the price of our electricity. There will be an additional surcharge of \$1,400 per month beginning in June 2025. In lieu of paying the surcharge, Constellation is offering three other options to choose from. I have reached out to two other companies to gather competitive pricing. Our current contracted price is \$0.0478 per kWh. Today's price is \$0.0878 per kWh.
- Discuss the relinquishment of ownership of the customer's private sewer lateral—specifically, the portion currently owned by the Authority within the public right-of-way—back to the customer. This segment of the lateral exclusively serves the individual property and does not benefit the broader system. Transferring ownership would make the customer fully responsible for the lateral from the building or house all the way to the CTSA main trunkline.
